**1. Introduction**

Islamic school system can be traced back to the lifetime of the prophet Muhammad (peace and blessing be upon him) he started teaching the knowledge of Islam at his residence in Arabic Language. People from different parts of the world were embracing Islam and acquiring lessons from the first Muslim teacher. The school later shifted to *Daar Al-Arqam*, which is considered the first Islamic school in the history of Islam.<sup>1</sup> After the death of the Prophet (S.A.W), his companions continued to uplift the system of teaching and learning in different places.

Private Islamic schools play a significant role in providing Islamic education to students. The Institute of Qur'anic Education Funtua (IQEF) has emerged as a key Institution in the proliferation of private Islamic school in Katsina south senatorial zone. This paper aims to explore the role of IQEF in promoting and supporting the establishment of private Islamic schools in Katsina South Senatorial Zone, Nigeria. Katsina South is a senatorial zone/district in Katsina state, that comprises the entire geographical areas of Bakori, Dandume, Danja, Faskari, Funtua, Kafur, Kankara, Malumfashi, Matazu, Musawa, and Sabuwa Local Government Areas.<sup>2</sup> The area is predominantly Muslims, with a strong emphasis on Islamic education. Historically the area has been known for its commitment to Islamic teachings and the establishment of Islamic schools. However, the demand for private Islamic schools has increased due to the various factors, including the population expansion and the desire for a more comprehensive Islamic education

Islamic education is given less priority as compared to other conventional subjects in our institutions. Islamic schools are left behind with less support and assistance from the state government. Some people consider private Islamic schools as a tool of making money, hence they contribute less to the development of Islamic education in the area of study. Therefore, the researcher feels the need to address the above problem through assessing the role played by the Institute of Qur'anic Education Funtua in the proliferation of private Islamic schools in Katsina

south senatorial zone. The selection of the participants was done based on the nature of the research questions which involves teachers/Muslim scholars, Parents/guardians, school operators, and graduates of the school. The current study addressed the following research questions:

1. What role did the Institute of Qur'anic Education Funtua play in the proliferation of private Islamic schools in Katsina South Senatorial Zone?
2. What are the Impacts of the school on the Community?

However, this study employed the narrative analysis method to transcribe the responses from the interview. A total of thirty interview requests were distributed, and in the end, twenty agreed to participate in the study.

## **2. Historical Background of Modern Islamic Schools in Katsina State**

Islam spread in Katsina together with its educational system. Before the arrival of colonialists, there were two types of school systems in Katsina, Qur'anic, and *Ilmi* schools.<sup>3</sup> The Qur'anic schools used to provide the starting point by teaching Arabic literacy and recitation of the Qur'an to pupils from early childhood to adolescence. The *ilmi* schools used to provide the second means of specialization training in different fields of Islamic learning. In Qur'anic schools, the pupils would sit on the ground or mats in a scattered sitting arrangement holding their learning materials. Supervised by either local residents or mobile teachers.<sup>4</sup> In the Quranic school system, there was some developmental stage like *Qolo*, *Titibiri*, *Gardi*, *Alaramma*, and *Gwani* or *Gangaran*, through which a student passes before proceeding to *ilmi* school.<sup>5</sup>

The integration of the product of *Islamiyyah*/Qur'anic schools into the Western system of education in Katsina had started since the time of the late Emir of Katsina Alhaji Usman Nagogo in collaboration with the native authority who established Arabic Teachers College (ATC) in the year 1963, (Now renamed Sir Usman Nagogo College of Arabic and Islamic studies. SUNCAIS).<sup>6</sup>

However, there were seven centers for the entrance examination into SUNCAIS across the state as follows: (1) Katsina Local Government (2) Dutsin-ma Local Government (3) Daura Local Government (4) Mani Local Government (5) Malumfashi Local Government (6) Funtua Local Government (7) Kankia Local Government.<sup>7</sup>

## **3. The Proliferation of Private Islamic Schools in the Area of Study**

The Muslim Population of Katsina South senatorial zone experienced rapid growth in recent times, the need for Islamic education increased and the Government alone may not provide adequate Islamic education for such a large number of Muslim children. Therefore, Private Islamic Schools appear to fill the gap which the Government may not. The traditional Qur'anic Schools are gradually diminishing in number because people are increasingly disenchanted with their quality and ability to provide effective religious education due to their limitation to Qur'anic teaching. Production of quality graduates by the Institute of Qur'anic Education Funtua is another factor responsible for the proliferation of Private Islamic Schools in Katsina South Senatorial Zone. Many parents enrolled their children to the school because they appreciated the role play by the products of the school towards promoting Islamic education in the area.<sup>8</sup>

Katsina South senatorial zone witnessed the establishment of private Islamic schools in the year 1997 when the Institute of Qur'anic Education Funtua was established by Sheikh Saidu Musa (popularly known as Liman Saidu).<sup>9</sup> In 1999 Community Model Arabic College Malumfashi was also established with Alhaji Babangida as the pioneer principal of the College.<sup>10</sup>

However, from 1997 to 2021 the following modern private Islamic schools were established in Katsina south senatorial zone: Institute of Quranic Education Funtua, College of Arabic and Islamic Studies (CAIS Funtua), Hayatul Islam CAIS Funtua, Hisburrahman CAIS Funtua, CAIS Bakori, CAIS Maska, CAIS Danja, Sardauna CAIS Dabai, Community College of Arabic and

Islamic Studies (CCAIS) Marabar Musawa, Community Model Arabic College Malumfashi, CCAIS Kafur, CCAIS Kankara, CCAIS Mairuwa, Ummah CAIS Faskari and Abubakar Sadik CAIS Sabuwa<sup>11</sup>

#### **4. Conception and Development of the Institute of Qur'anic Education Funtua**

Institute of Qur'anic Education Funtua is the pioneer Islamic school registered with the National Board for Arabic and Islamic Studies in the Funtua senatorial Zone. The School originated from *Islamiyyah* School established by Imam Sa'id Musa in 1980 in Funtua. Later on, the Sheikh was displeased with the inability of the Funtua people to acquire higher Islamic studies certificates unless they traveled out to Arabic Teachers College Katsina, the then-only institution of its kind in Katsina State. That was what motivated the Sheikh to prepare himself for the establishment of his school in 1997.<sup>12</sup> The school right from its inception has been rendering a lot of contributions to the development of Islamic Education in Funtua Zone in particular and Katsina state in general. Zonal Education Office Malumfashi recommended the application made by Sheikh and forwarded it to the state ministry of education and the approval was granted.<sup>13</sup>

The school produced a lot of prominent individuals who contributed to the development of Islamic education and other sciences in Katsina state in particular and Nigeria in general. Such us

Dr. Sani Suleiman (b.1977), of the Islamic Studies Department, Umaru Musa Yar'adua University Katsina, Aminu Isah Musa (b1978), of Federal College of Education Kano and Dr.

The curriculum has met the National educational policy of the 6-3-3-4 system. The curriculum of the junior *Tahfiz* comprises Arabic Language, Islamic Studies, *Tajweed*, *Tartil*, Islamic History, Social Studies, Integrated Sciences, Hausa, English, and Mathematics.<sup>16</sup>

While in the senior section Institute of Quranic Education Funtua offers subjects like Islamic studies (*Tauhid*, *Fiqh wa Usul-alFiqh*, *Hadith wa Mustalahul Hadith*), Arabic Language (*Nahw wa Sarf*, *Adab wa Naqd*, *Balaghah*, *Arud*, *Al-insha wal Mudaliyah*) Hausa Language, English language, Qur'anic Studies (*Tajweed*, *Tarteel*, *Qira'at*), Mathematics, Social Studies, Islamic History and Health Education. However, it should be noted that the curriculum of senior Islamic studies and that of Tahfeezez are almost the same.
